

Tampere University of Technology (TUT)

Technology for the benefit of people and the environment

5th Annual Seminar of the UNESCO Chair in Sustainable Water Services
August 25th 2017

Heli Harrikari, Dean
Faculty of Business and Built Environment

Tampere University of Technology

The background image shows a modern university campus. In the foreground, a student with a backpack is riding a bicycle from left to right. In the middle ground, a large, light-colored building with a green roof and a wide staircase is visible. In the background, a taller building with the word 'AMPUSAREENA' on top stands against a clear blue sky. There are trees and a paved area in the foreground.

Established
in 1965

Approx. 1,600
employees and
7,900 students
(2016)

Collaborates
with approx. 230
universities
around the world

Started operating
in the form of
a foundation
in 2010

Quality assurance
system audited by
The Finnish Higher
Education
Evaluation Council
in 2014

**Three top-quality
institutions will
become one.**
